## Rhythmic Gymnastics INDIVIDUAL

Start the competition with the variety of devices in the individual category of the international rhythmic gymnastics cup.

Following the current regulations of the FIG for the period 2025-2028 we will get excited with the seniors and juniors routines, as well as admire the

progression in the younger ages. It is a unique opportunity to share the results of so many hours of training and effort with the international atmosphere that is breathed during the International Cup of Rhythmic Gymnastics. We have prepared some surprises so that

the gymnasts can enjoy their idols during the photoshop and autographs session at BLUME GRAN CANARIA.

## Rhythmic Gymnastics GROUPS

A very special fascination dominates the competition in the category of groups: five gymnasts with five identical or two different devices together. The precise coordination where at each moment "they have to trust blindly" is

achieved with a lot of training and personal talent.

With a maximum duration of two and a half minutes, a real effects firework is presented, which is the special attraction of the group exercises. The seem-

ingly effortless handling of various devices captivates the audience and complete the competition day.
